

Artem Matiushenko

Lead UI Engineer | Frontend Platform Engineering | React • TypeScript • Frontend Architecture

Prague, Czech Republic | LinkedIn: <https://linkedin.com/in/artem-matiushenko-a0a848116>

Professional Summary

Lead UI Engineer specialising in Frontend Platform Engineering, with 12+ years modernising enterprise SaaS platforms through scalable architecture, shared platforms, and developer tooling.

Career Highlights

- Unified 4+ fragmented tech stacks into a single React/TypeScript platform, doubling frontend developer productivity.
- Built and scaled a company-wide Design System adopted across 5+ engineering teams.
- Reduced deployment workflows by **over 85%** by designing a self-service deployment platform.

Skills

Frontend Architecture • Platform Engineering • Design Systems • Micro Frontends • Nx • React • TypeScript • React Native • Redux • Zustand • Rspack • Vite • Storybook • Jest • Cypress • GraphQL • AWS

Professional Experience

Lead Software Engineer – Capillary Technologies | May 2026 – Present

- Leading the transformation of a legacy .NET MVC/Razor platform into a modern React/TypeScript microfrontend architecture.
- Designed a self-service deployment platform, reducing deployment time by **over 85%**, and led adoption of Claude Code across the organisation.

Lead Software Engineer – Mastercard (SessionM) | March 2025 – May 2026

- Owned frontend architecture across multiple engineering teams, designed a shared Design System adopted across 5+ product teams, and unified 4+ fragmented legacy tech stacks, doubling developer productivity.

Earlier Roles (2013–2022): Senior Software Engineer at **Mastercard (SessionM)** • Senior Software Developer & Front-End Developer at **4finance** • Front-End Developer at **Turumburum** and **UpSale** — React/React Native development, legacy modernisation, and mentoring.

Education & Languages: Master's Degree, Kharkiv National University of Radioelectronics • English (Professional) • Ukrainian (Native) • Czech (B1)
